UNITED STATES DEPARTMENT OF AGRICULTURE  
EXTENSION SERVICE  
OFFICE OF AGRICULTURAL INSTRUCTION  
Washington, D. C.

C.L. 9

BIRDS AND OTHER ANIMALS. PUBLICATIONS OF THE DEPARTMENT OF AGRICULTURE  
CLASSIFIED FOR THE USE OF TEACHERS.

The following list of publications has been prepared to assist teachers in making an intelligent selection of Department publications on topics pertaining to nature study. Farmers' Bulletins (F.B.), are written in non-technical style and contain recommendations and directions for procedure in modern agricultural practices. Department Bulletins (D.B.), are technical discussions primarily of the results of experimental work of the Department. Department Circular (D.C.), carry less technical and more informational contributions designed for scientific and limited mailing lists. Miscellaneous Circulars (M.C.), are of a nature which do not fall in the other three classifications or which are other than regular octavo size. Yearbook Separates (Y.S.), are reprints of articles appearing in the Yearbooks of the Department. It is the policy of the Department to limit the distribution of publications to actual present needs as nearly as possible, so that the funds available for publications can be made to benefit the largest possible number of real users. Copies of many of the publications listed below may be obtained free upon application to the Office of Publications, U.S. Department of Agriculture as long as the Department's supply lasts. When the Department's supply is exhausted they may then be obtained at the prices indicated from the Superintendent of Documents, Government Printing Office, Washington, D. C., to whom both postal order and remittance should be addressed as that office officially is not connected with the Department of Agriculture. Postage stamps, mutilated coins, foreign money and uncertified checks will not be accepted. No publications are sold by the Department of Agriculture.

Title	Publication	Price
<u>Birds.</u>
